

# 7900 sianet & 7500 sianet CER

## The Powerful Net-Backed Abrasive

7900 sianet and 7500 sianet CER utilize a knitted fabric backing for enhanced dust extraction and superior flexibility. Truly the product for any application, both 7900 and 7500 sianet series can be used for almost every type of sanding in both the wood and coatings & composite industries.

### **Applications:**

- Sanding down coatings and impurities
- Keying paints, lacquers, bodyfillers primer fillers and plastics
- Sanding out unevenness at the edges of repaired surfaces
- Intermediate lacquer and varnish sanding
- Fine sanding of primer filler, solid wood, and veneers

### **Structure:**

- Grain: 7900 - Aluminum Oxide  
7500 - Ceramic (CER)
- Backing: Knitted fabric

### **Advantages:**

- Best dust extraction rates with minimal clogging
- Very high removal rates
- Flexibility with high tear resistance
- Hole-pattern independent
